NOTES TO FINANCIAL STATEMENTS
For the Years Ended December 31, 2011 and 2010

NOTE 1 ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization - Public.Resource.Org, Inc. (the Organization) was founded April 13, 2007, to create, architect, design, implement, operate and maintain public works projects on the Internet. The Organization's primary source of revenue is grant income.

Basis of Presentation - Resources are classified for accounting and reporting purposes into three classes of net assets, according to externally imposed restrictions:

Unrestricted net assets - Net assets that are not subject to any donor-imposed restrictions. This class also includes restricted gifts whose donor-imposed restrictions were met during the fiscal year.

Temporarily restricted net assets - Net assets resulting (a) from contributions and other inflows of assets whose use by the Organization is limited by donor-imposed stipulations that either expire by passage of time or can be fulfilled and removed by actions of the Organization pursuant to those stipulations, (b) from other asset enhancements and diminishment that are subject to the same kind of stipulations, and (c) from reclassification from (or to) other classes of net assets as a consequence of donor-imposed stipulations, their expiration by passage of time, or their fulfillment and removal by actions of the Organization pursuant to those stipulations.

Permanently restricted net assets - Net assets resulting (a) from contributions and other inflows of assets whose use by the Organization is limited by donor-imposed stipulations that neither expire by passage of time nor can be fulfilled or otherwise removed by actions of the Organization, (b) from other asset enhancements and diminishment that are subject to the same kinds of stipulations, and (c) from reclassification from (or to) other classes of net assets as a consequence of donor-imposed stipulations.

There were no permanently restricted net assets as of December 31, 2011 and 2010.

Method of Accounting - The financial statements of the Organization are prepared using the accrual basis of accounting, which reflects revenue when earned and expenses as incurred.

Cash and Cash Equivalents - Cash is defined as cash in demand deposit accounts as well as cash on hand. Cash equivalents are short term, highly liquid investments that are readily convertible to known amounts of cash and investments so near their maturity that the risk of changes in value due to changes in interest rates is negligible. These are generally investments with maturity dates within three months of the acquisition date.

Accounts and Grants Receivable - It is the practice of the Organization to expense uncollectibles only after exhausting all efforts to collect the amounts due. There is no allowance for doubtful accounts and management believes all amounts will be collected in full.

In-kind Contributions - Contributions of goods are recorded at their fair market value at the date of the contribution.

NOTES TO FINANCIAL STATEMENTS
For the Years Ended December 31, 2011 and 2010

NOTE 1 ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Intangible Assets - The Organization holds title of a domain name, appraised at \$12,400, which was donated by a related party in 2008. The Organization evaluates the value of this intangible whenever events or changes in circumstances indicate the carrying value will not be recoverable. There was no impairment of the asset for 2011 or 2010.

Contributions - Contributions are recognized when the donor makes a promise to give to the Organization that is, in substance, unconditional. Donor-restricted contributions are reported as increases in temporarily or permanently restricted net assets depending on the nature of the restrictions. When a restriction expires, temporarily restricted net assets are reclassified to unrestricted net assets.

Furniture and Equipment - The Organization records furniture and equipment in excess of \$5,000 at historical cost or, if donated, at fair market value at the date of donation. Depreciation is determined on the straight-line method over the estimated useful life of 5 years.

Income Taxes - The Organization is exempt from federal and state taxes under Section 501(c)(3) of the Internal Revenue Code and Section 23701d of the California Revenue and Taxation Code, and is considered by the IRS to be an organization other than a private foundation. In the opinion of management, there is no unrelated business income.

Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Advertising Expense - The Organization expenses advertising costs as incurred. Advertising expense totaled \$14,080 for the year ended June 30, 2011.

Subsequent Events - Subsequent events have been evaluated through February 8, 2012, which is the date the financial statements were available to be issued.

ASC 740-10, Accounting for Uncertainty in Income Taxes - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Organization to report information regarding its exposure to various tax positions taken by the Organization. The Organization has determined whether any tax positions have met the recognition threshold and have measured the Corporation's exposure to those tax positions. Management believes that the Organization has adequately addressed all relevant tax positions and that there are no unrecorded tax liabilities. Federal and state tax authorities generally have the right to examine and audit the previous three years of tax returns filed. Any interest or penalties assessed to the Organization are recorded in operating expenses. No interest or penalties from federal or state tax authorities were recorded in the accompanying financial statements.
